## What Makes Faldu Special?

Faldu. The finest quality products designed for elegant bathrooms & other utility spaces, stands for super long-life functioning and unmatched aesthetics.

Made with AISI 304 & 316\* grade (\*for bulk order) Stainless Steel for superior finish and functionality, Faldu bathroom products and accessories have grown to become the preferred choice of those seeking high quality standards.

Faldu products are engineered for higher outlet flow rate, stain and rust free life, easy cleaning & maintenance, cockroach resistance, safety and recyclable amongst other industry standard qualities. They come with a high level of finish and provide for exceptional aesthetics. At Faldu, design improvement and process innovation to bring down costs are always underway, to achieve higher customer satisfaction, year on year.

## Milestones on our road to the future

-  **2004** Bath Accessories
-  **2012** Floor & Shower Drains
-  **2020** Grab Bars
-  **2021** Technical Profiles
-  **2025** Channel Drains

An ISO 9001:2015 Certified Company

## The Right Location The Right Genes

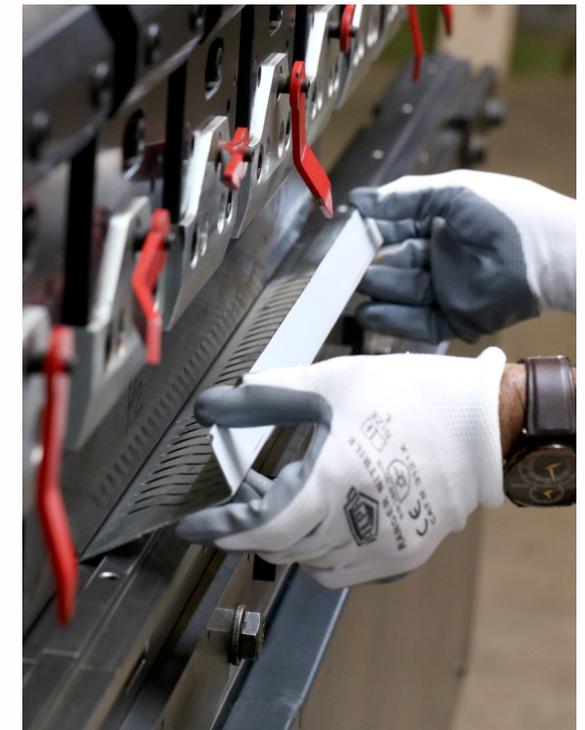

Faldu is located near Rajkot, Gujarat, an area known for its Engineering and Manufacturing prowess, and is a renowned source of building material brands that dominate the construction industry, throughout the country.

## Products That Impress

Faldu specializes in Shower Channel Drains, Floor Drains and Bathroom Accessories, Grab Bars and has now begun manufacturing Technical Profiles and Channel Drains at its extension facilities at Rajkot. This integrated manufacturing facility has 100% in-house operations, which allows complete control over product quality and delivery.

Product development to improve aesthetics, functionality and ease of use is an ongoing effort at Faldu. This has endeared Faldu to the large community of Architects, Designers, Engineers, Builders and Home Owners.

Meanwhile, several customized product orders are also in the pipeline, for high-end requirements, corporate OE buyers and export markets.

## How Faldu Ensures Quality

Faldu has product designs, die & mould making, cutting, punching and finishing activities with their attendant machinery and engagement, all integrated under one roof. And all manned by experienced teams of specialists.

The ISO 9001:2015 certification reflects its dedication to quality and customer satisfaction, achieved through a robust Quality Management System that drives excellence in everything we do.

Faldu exports have helped creating a high quality perception for its products in the Indian market. A perception we live up to, everyday at work.

# 11 reasons to choose our products

An ISO 9001:2015 Certified Company

INTERNATIONAL GRADE STAINLESS STEEL (SS) FOR BEST AND LASTING PERFORMANCE.

HIGHER GRADE SS ARE MOST RESISTANT TO RUST AND CORROSION IN CONSTANT HUMID CONDITIONS.

DESIGNED TO INCREASE DRAIN EFFICIENCY. EACH DESIGN HAS VARIABLE HIGH FLOW RATE TO DRAIN SPEEDILY.

PRECISION ENGINEERED FOR EASY INSTALLATION AND ALL ESSENTIAL GUIDELINES PROVIDED.

SAFETY IS KEY FOR INSTALLATION AND DAY-T-O-D AY USAGE. ALL SHARP EDGES ARE FOLDED INSIDE & TAPERED OUTSIDE.

GRADIENT SLOPE TOWARDS OUTLET INCREASES DRAINING CAPACITY AND OFFERS EASE IN MANUAL CLEANING.

DETACHABLE / OPENABLE PLATE FOR ROUTINE CLEANING AND MAINTENANCE.

ANTI-COCKROACH TRAP OPTIONS AVAILABLE TO CONTROL GENERIC PESTS.

INTERNATIONAL QUALITY STANDARD RAW MATERIAL, CRAFTSMANSHIP AND SIZES TO CATER TO GLOBAL MARKET.

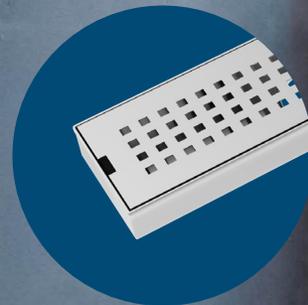

CUSTOMIZED PRODUCT SIZES AND QUALITY CAN BE PRODUCED FOR CORPORATE, OE SOURCING AND INTERNATIONAL MARKET REQUIREMENTS.

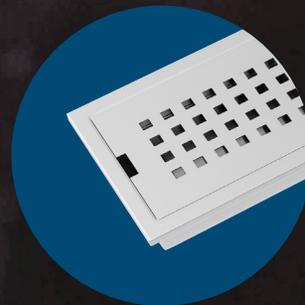

GLOBALLY COMPLIANT 100% RECYCLABLE MATERIAL.

**ANTI-COCKROACH LOCK MECHANISM**

THE MECHANISM WORKS THROUGH WATER WEIGHT TO OPEN & CLOSE THE TRAP. WATER LEVEL MAINTAINED CONSTANTLY IN THE TRAP TO RESTRICT COCKROACHES & OTHER SIMILAR PESTS. THE TRAP OPENS ONLY WHEN ADDITIONAL WATER COMES INTO THE DRAIN.

The seamless fusion of human expertise and cutting-edge technology.

Creating functional  
bathrooms...

Ensure you have **essential support** at the time when you actually need it

# GRAB BARS

Grab bars are essential safety and accessibility features commonly found in bathrooms, but they can also be installed in other areas of the home or public spaces where additional support and stability are needed.

Here are their usage and importance:

#### **Bathroom Safety:**

Shower and Bathtub: Grab bars in the shower or bathtub provide support for individuals while they are bathing, helping to prevent slips and falls on wet surfaces. Toilet: Grab bars near the toilet assist with sitting down and standing up, especially for those with mobility issues or balance problems.

#### **Accessibility:**

Grab bars are indispensable for people with disabilities or the elderly who may have difficulty moving around or maintaining their balance. They make it easier to access essential bathroom fixtures independently.

#### **Fall Prevention:**

Installing grab bars in strategic locations can significantly reduce the risk of slips and falls, which can be especially dangerous for older adults.

#### **Independence:**

Grab bars promote independence, allowing individuals to perform daily tasks without relying on the assistance of others. This enhances their quality of life and preserves their dignity.

#### **Support for Caregivers:**

For caregivers assisting individuals with mobility issues, grab bars can make tasks like transferring to and from the toilet or shower much safer and more manageable.

#### **Versatility:**

Grab bars are not limited to bathrooms. They can be installed in various areas of the home, such as hallways, staircases, and bedrooms, to provide support and stability where needed.

#### **Temporary Assistance:**

Grab bars are available in both permanent and removable options. Temporary grab bars can be installed when needed and easily removed when they are no longer necessary.

#### **Public Spaces:**

Public restrooms, hospitals, nursing homes, and other public facilities often have grab bars installed to ensure the safety and accessibility of all visitors.

#### **Aging in Place:**

Grab bars are a crucial element of "aging in place" design, which allows seniors to remain in their own homes comfortably and safely as they get older.

#### **Preventing Injuries:**

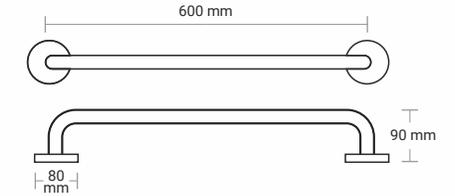

Injuries from falls are a significant concern, especially for seniors. Grab bars can significantly reduce the risk of such injuries, ultimately lowering healthcare costs and improving overall well-being.

#### **Compliance with Building Codes:**

Building codes often require the installation of grab bars in certain locations, particularly in new construction or when renovating spaces to accommodate individuals with disabilities.

In summary, grab bars play a vital role in ensuring the safety, accessibility, and independence of individuals with varying levels of mobility. They are essential fixtures in bathrooms and can be strategically placed throughout the home or in public spaces to prevent accidents, support daily activities, and promote inclusivity.

Public Restrooms, Hospitals, Nursing homes, and other public facilities often have grab bars installed to ensure the safety and accessibility of all visitors.

**Specifications:**

- Material : 18-8 S, Stainless Steel 304
- Diameter : 25 mm / 32 mm (Can be customized)
- Capacity : 200 Kgs. with proper installation support
- Installation : Wall mounted
